

FANUC offers a diverse line of intelligent robots to solve any production challenge including: collaborative, SCARA, delta, clean-room, and super-heavy payload models.

FANUC ROBOTS AND AUTOMATION ARE TRANSFORMING MANUFACTURING

Our robots provide world-renowned reliability for assembly, material handling and removal, packaging, painting, welding and many other industrial applications.

Force Sensing technology allows the robot to feel pressure for sensitive operations.

Our collaborative robots combine the capabilities of an industrial robot with safe contact-stop and user-friendly features.

FANUC's integrated iRvision allows the robot to see, offering many possibilities in programming and quality control.

With over 24 million products installed, FANUC is the global leader in automation for manufacturing. Our proven expertise and innovative technologies help companies improve quality, maximize productivity, increase profits, and stay competitive.
